Modena Design Centres (Pty) Ltd
5 Pont Road
Bryanston
SANDTON

Dear Anthony.

We would like to take this opportunity to express our sincere gratitude for the outstanding services that Modena Design Centers (Pty) Ltd has supplied us with to date on our Grootegeluk Medupi Expansion Project.

Our recent experiences with your Navis Works software, incorporating Vault for Manufacturing has been an educational and exciting phase of our project. We are sure that the purchase of these products will hold us in good standing for the rest of our project and way into future.

The placement of your on site Applications Engineer has been extremely beneficial to the Project team and the Grootegeluk Medupi Expansion Project in general. The success of the installation and implementation of the above software products and that of AutoCad Inventor 2010 has been a direct result of the dedication and hard work achieved on our project by your members of staff.

We look forward to the future together with Modena Design Centers and the outstanding service and product support you have supplied to Exxaro and the Grootegeluk Medupi Expansion Project

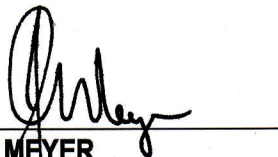

Yours faithfully
